- **Soft Skills**: Teamwork, leadership, mentoring, onboarding, communication, brainstorming, ideation, documentation

EMPLOYMENT HISTORY

SOFTWARE ENGINEER III
Nov 2025 - July 2026

RLDatix **Lehi, UT**

- Designed and built a new email notification experience which granted hospitals more granular control over document revision reports.
- Documented and formalized engineering team processes that were previously tied up in tribal knowledge.
- Built the OpenTelemetry integration with PHP, which enabled better visibility into errors and timeouts.

PHP DEVELOPER (6-month Contract)
Jan 2025 - Aug 2025

LifeSTEPS **Sacramento, CA (Remote)**

- Built a revolutionary permissions system by updating 100+ legacy permissions checks in PHP, which simplified user account permissions setup and management.
- Audited and redesigned the structure of the main menu, permissions screens, and reports, driving greater efficiencies in property management and employee performance tracking.

SOFTWARE DEVELOPER
Jun 2017 – Dec 2023

Younique Products **Lehi, UT**

- Led back-end development of major redesign to Product page (using React and Node.js), which improved performance and user experience.
- Developed Node.js middleware for microservice translations, upgrading multilingual experience on website for over 8000 translated strings.
- Mentored and onboarded new developers, allowing them to contribute within the first week.
- Built an innovative Drupal-powered content management and scheduling system using PHP, which cut content creation, scheduling, and testing time by 50%.

EDUCATION

MASTER AND BACHELOR OF INFORMATION SYSTEM MANAGEMENT
April 2017

Brigham Young University, Marriott School of Management

- GPA 3.90 – Cum Laude, Marriott School Dean's List
- Built YouTube Audio Filtering, Chrome browser extension using JavaScript and Angular
